Greetings to the Graduates

The pomp and ceremony of convocation exercises formally mark an important life transition for you, our graduates. Surrounded by proud families, friends, teachers and mentors, you may now move forward with confidence, having earned our admiration and praise.

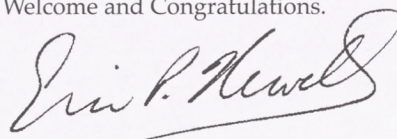

Each of you chose to follow a rigorous intellectual path and each has proved worthy. Today, you mark an important milestone in your life while we, your community, mark an important one in ours. Ninety-eight years ago, the University of Alberta was founded on a scrubby piece of riverbank by men and women who believed this province should be built on a foundation of knowledge.

At that time, our founding president, Henry Marshall Tory, promised that the knowledge within these walls would not remain here, but would flow forever outward in service to our community. Today, you join more than 200,000 University of Alberta alumni worldwide in fulfilling that promise.

Since those first classes back in 1908, our community has grown beyond the borders of Alberta to encompass the world in one global community. Learning to live peacefully and prosperously in this community will require leaders and citizens of vision, commitment and drive. More than ever, the world needs leaders and citizens like the people you have become.

While today may seem like an ending, it is not. Today is a beginning, a first step along a new path. You will continue to grow, to learn and to contribute. You will also continue to be a life-long member of our University of Alberta community.

Welcome and Congratulations.

Eric P Newell, OC, LLD (Hon)
Chancellor

On behalf of Premier Klein and my colleagues in the Legislature, congratulations to all University of Alberta graduates.

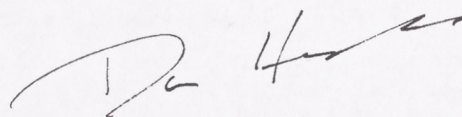

As a University of Alberta graduate, I can tell you that your hard work and dedicated studies will benefit you for a lifetime. The things you have learned, the skills and abilities you have gained, the experiences you've had, and, most importantly, the relationships you've built during your time at university will serve you well as you move forward into the next phase of your life.

There has never been a better time to be a graduate in Alberta. You are graduating during Alberta's centennial year—a time to celebrate the past, but also to look ahead to the possibilities and promise of the future. All of us in this province are fortunate to have such a rich legacy of success forged during Alberta's first 100 years, and we can look

forward to even greater success in the next 100. And you will each play an important role in building that success.

I wish you all the very best as you embark on the next steps in your life, whatever they may be. I hope you look back on your time in university with great fondness and pride, and that you build on those treasure memories in the years to come.

Once again, congratulations to the entire graduating Class of 2005! And best wishes for a wonderful future.

Dr David Hancock, QC
Minister Advanced Education

Greetings from Faculty and Staff

Universities began as small collections of scholars who worked together to preserve and advance knowledge. Students came to study with them and, in due course, an administrative structure arose to provide system and recognition for those studies. This ancient structure is preserved at the University of Alberta, with the faculty and the students providing the core of the University's purpose: teaching and the advancement of knowledge.

The faculty and staff congratulate you, the graduates, on the successful completion of your present studies which is recognized by the degrees to which you are admitted today. We hope your present knowledge provides a sound base for an education which will continue throughout a rewarding life. To quote Honorary Degree Recipient Tommy Banks: "Try to be a good person. You will be amazed how rewarding it is."

Congratulations from the Faculty and Staff!

Honorary Degree Recipient

George Elliott Clarke

Dr George Elliott Clarke, an Africadian poet, novelist, playwright, screenwriter and literary critic, has made exceptional contributions to African Canadian literary studies and is known as one of the best English language poets in Canada.

George Elliott Clarke was born in 1960 in Windsor, Nova Scotia, near the Black Loyalist Community of Three Mile Plains, and was raised in Halifax. Dr Clarke is a seventh-generation Canadian of African-American and Mi'kmaq Amerindian heritage. His own ancestors were part of the black Loyalist contingent who settled in the Maritimes following the War of 1812. He now resides in Toronto, Ontario. He earned a BA (Honours) in English from the University of Waterloo in 1984, an MA in English from Dalhousie University in 1989 and a PhD in English from Queen's University in 1993. Currently, he is the E.J. Pratt Professor of Canadian Literature at the University of Toronto.

His eleven books of poetry and drama have been published to critical acclaim, including the Execution Poems, which won the 2001 Governor General's English Canadian Poetry award.

His work has earned him a number of prestigious awards, including Trudeau Fellowship Prize; Dr Martin Luther King, Jr. Achievement Award; the National Magazine Gold Medal for Poetry; the Alumni Achievement Award, University of Waterloo; and the Bellagio Centre Fellowship, Rockefeller Foundation, NYC. He was the first recipient of the prestigious Portia White Prize, an annual award from the Nova Scotia Arts Council which recognizes cultural and artistic excellence.

He received an Honorary Doctor of Laws degree from Dalhousie University (1999) and an Honorary Doctor of Letters degree from the University of New Brunswick (2000).

Dr Clarke is one of Canada's leading intellectuals. He has been instrumental in promoting the work of writers of African descent, especially those from Nova Scotia. Without his efforts as a poet, an essayist, a teacher and a scholar, African Canadian literature would not be as widely known, read, and respected as it is today.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr George Elliott Clarke:

King, Ron and Roy Fisher. *Anansi Company*. London: Circle Press, 1992. Number 41 of an edition of 120 copies signed by authors.

This seventh collaboration between the artist/printer and poet is a collection of verses featuring the ubiquitous West African spider god Anansi, accompanied by thirteen carnivalesque screen printed removable wire and card puppets. Anansi has had universal appeal for many generations by representing a spirit of rebellion and his/her ability to fly in the face of social order. It is a brilliant addition to Special Collections' strong holdings of artists' bookworks.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. Honorary Degree Recipient

Ronald Neil Mannix

Mr Ronald Mannix is well known for his visionary business leadership and province-wide support of charitable actions and public initiatives.

A distinguished University of Alberta alumnus, Ronald Mannix received a Bachelor of Commerce degree in 1972. After university, he joined Manalta Coal Ltd. and became President then Executive Vice-President of Mancal Ltd., the parent management company of Manalta. He became President and CEO of Mancal in 1978, in charge of all of the family business operating companies, with the role of Chair added to his responsibilities in 1980.

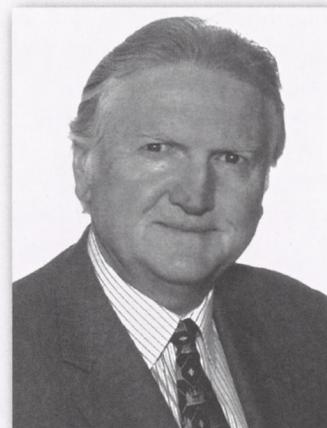

Currently, Mr Mannix is Chair of Coril Holdings Ltd., a company involved in global investment, railroad manufacturing and maintenance, microscope production, real estate, ranching and mining activities. He is also a member of the Entrepreneurs Circle of the Canadian Council of Chief Executives, and Chair and Director of Loram International Ltd and CXE International Ltd.

On a philanthropic basis, Ronald Mannix plays many lead roles: past chair and director of the Carthy Foundation; member, director and past chair of the Max Bell Foundation; member, director and past-chair of the Norlien Foundation, which he created in 1998 to support health and wellness, environmental protection and children at risk initiatives; director and past-chair of the Scripps Foundation International Board; and past-chair of the Calgary International Organ Competition and Festival. He has played a pivotal role in the creation of the Cantos Music Foundation, which features an all encompassing museum-style exhibit and interpretive centre presenting the history of keyboard instruments and their role in making music.

Mr Mannix has also been involved with a number of other organizations, such as the Strathcona Tweedsmuir School, University of San Diego, and the Esther Honens International Piano Competition. Mr Mannix's involvement with music, health and wellness, environmental protection and children at risk initiatives demonstrates his keen interest in creating positive outcomes for many members of our society.

Ronald Mannix is also a leading supporter of the University of Alberta's Faculty of Business Centre for Entrepreneurship and Family Enterprise (CEFE). CEFE is now internationally known, providing ground breaking research and programs focusing on the backbone of the Canadian economy – family business.

Ronald Mannix continues to play an active role in creating opportunities which advance education and family business initiatives, and he is an exemplary leader for alumni and students.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Ronald Mannix:

Rubenstein, Artur. My Young Years.
New York: Knopf, 1937.
Limited edition of 350 copies, signed by the author.

This is a first edition of the autobiography of the Polish-born United States pianist considered by many to be the greatest 20th century piano virtuoso. He studied in Warsaw and Berlin, making his North American debut in 1906. He was a supreme interpreter of Chopin, appeared in many films and made very distinctive recordings. His reputation continued to grow until he was recognized as a great pianist in the 1950s and for 85 of his 95 years he appeared with the world's major symphony orchestras.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Honorary Degree Recipient

José Saramago

Mr José Saramago of Portugal, recipient of the Nobel Prize for literature in 1998, is an eminent author, journalist and commentator of international renown.

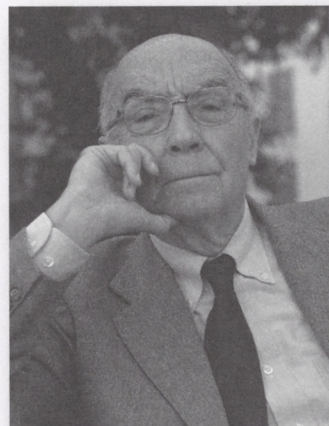

Mr Saramago was born in 1922 in Azinhaga, Portugal into a landless peasant family. Due to an absence of resources Mr Saramago, the only surviving son, was forced to abandon grammar school at age 12 and attend a technical school. For the next five years he attended a trade school to become a mechanic. He subsequently learned several trades: metalworker, draftsman, health care and social worker. During his late teens he started to frequent a public library in Lisbon. It was there, Mr Saramago has declared, with no help or guidance except curiosity and the will to learn, that his taste for reading developed and was refined.

His first novel appeared in 1947 (*The Land of Sin*) but his literary career did not begin in earnest until 1966 with the publishing of *Os poemas possíveis* (Possible Poems). In the intervening years Mr Saramago worked as a journalist, publisher, literary critic and translator. In 1972-1973, difficult years in Portugal, he was a political commentator and member of the editorial board of the Lisbon daily *Diário de Lisboa*.

Both his experience with many stations of life and his own struggle to become an artist in the face of adversity shaped his abundant literary production, which includes plays, short stories, novels, poems, libretti, dairies and travelogues. His first two major novels addressed this double dimension of his work: *Manual de Pintura e Caligrafia* (Manual of Painting and Calligraphy: A Novel, 1977) whose theme is the genesis of an author, and *Levantado do chão* (Risen from the Soil, 1980) a three-generation saga of a sharecropper family from the post-World War I period through 25 April 1974, the date of the Portuguese revolution.

Deeply involved with Portuguese history and traditions, Mr Saramago nonetheless began attracting an international audience in the 1980s. This was in part because he used the material of Portuguese history to address universal concerns. *Memorial do convento* (Baltasar and Blimunda), a soaring tale of love set among the terrors of the Inquisitions and the plague in Portugal in 1711, launched his international reputation. *O Ano da morte de Ricardo Reis* (The Day of the Death of Ricardo Reis, 1984) turns around the work and persona of the great twentieth century Portuguese poet Fernando Pessoa. It is one of his major achievements. Perhaps most controversially, his *O Evangelho Segundo Jesus Cristo* (The Gospel According to Jesus Christ, 1991) interprets the events of the New Testament as Jesus might have lived them.

Since receiving the Nobel Prize in 1998 Mr Saramago has become widely read in Canada and around the world. Works such as *Ensaio sobre a Cegueira* (Blindness, 1995) and *História do Cerco de Lisboa* (History of the Siege of Lisbon, 1985) have been translated into English and are widely available. He has produced 30 works that comprise prose, poetry, essays and drama. In 1991 he and his wife moved to the island of Lanzarote in the Canaries, where they reside today.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr José Saramago:

Il Cantico Delle Creature di Francesco Di Assisi.

Italy, 2001. Edition of 1200 copies.
Unique binding by Don Rush.

This timeless poem glorifying the sun is written out in a calligraphic hand in 165 different dialects and languages for this facsimile edition specially published for a Bookbinding Competition held in Italy. For the purpose of this display, the opening is at one of the Portuguese translations of Francis of Assisi's song to the Sun.

Congratulations Graduates

A song of praise to Varsity
For the splendour of our mountains
Our prairies green and gold,
Ranked beneath whose glowing colours,
Thy legions march enrolled.
Our memories will live forever
Beloved University
We will fight for thee and cheer
And ever hold thine honor dear.
Our Alma Mater U of A

Members of the audience are requested to remain at their places until the Platform Party and the graduates have recessed.

Following the Convocation ceremony, light refreshments will be served in the reception areas to the right and left of the stage. The University and the Alumni Association cordially invite you to attend.

Those graduates who would like a photograph with the Chancellor may meet him at the display in the reception area to the left of the stage. The Chancellor will be available for approximately twenty minutes following the conclusion of the ceremony.

Congratulations

Honorary Degree Recipients

Doris and Peter Kule

Drs Doris and Peter Kule are two outstanding community leaders. Dr Peter Kule, a prominent chartered accountant, and Dr Doris Kule, an accomplished elementary school teacher, focus their time and generosity on supporting educational endeavours, cultural exchange and community development.

Dr Doris Kule was born near Willingdon, Alberta. She received her teaching certificate from Camrose Normal School, and her first teaching assignment was in rural Alberta at Shalaka School in 1943. She began teaching at Beverly Heights Elementary School in 1945 where she taught for 34 years. Dr Peter Kule was born in Stratyn, Ivano Frankivs'k, Ukraine. In 1938, Peter, his mother and brothers immigrated to Canada to join his father in Two Hills, Alberta. In 1940, Peter set out on his career path, completing his articling and becoming a Certified Public Accountant. Peter's practice flourished, eventually evolving into the firm known today as Kingston Ross Pasnak. In 1943, Peter and Doris were married, and ever since they have been strong partners, giving selflessly of their time and support to the community.

Together, they helped fund the "Bright Futures" stay in school program of the Mennonite Centre for Newcomers at Queen Elizabeth High School in Edmonton. The program, currently serving 180 students from 44 countries, aims to help immigrant high school students adjust to Canada's cultural and educational system.

They made a significant donation to the Chartered Accountants' Education Foundation in support of the Chartered Accountant Chair in the Faculty of Business at the University of Alberta. In addition, Doris and Peter Kule have endowed two Chairs in Eastern Christian Theology at St. Paul's University in Ottawa and one Chair in Ukrainian Community and International Development at the Ukrainian Resource and Development Center at MacEwan College in Edmonton. In 1998, they each received an honorary degree from St. Paul's University.

In August 2003, the couple created an endowed chair, entitled the Kule Chair in Ukrainian Ethnography at the University of Alberta's Ukrainian Folklore Centre. This endowment funds a full time position, held by a leading international scholar in the field of Ukrainian culture and traditions, and supports research and scholarly activity centering on folklore and ethnography. The Kule's donation greatly strengthens a centre which is already renowned amongst scholars as the largest centre for the study of Ukrainian culture outside of Ukraine.

In linking Canada and the Ukraine by building relationships between academic institutions that will grow in perpetuity, this couple has helped to internationalize post-secondary education in Canada. The commitment of Drs Doris and Peter Kule to building a better Canada and a better world is reflected in their dedication to their heritage, church, public education and international understanding. Their visionary support for education in particular will touch the lives of many professors and students for generations to come.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of honorary degrees to Dr Doris Kule and Dr Peter Kule:

Sherbinin, Michael A. *The Galicians Dwelling in Canada and their Origin.* Winnipeg: Manitoba Free Press Co., 1906. (Historical and Scientific Society of Manitoba, Transaction No. 71)

Sherbinin was a friend of Leo Tolstoy who portrayed him as "Tsherbinin" in War and Peace. After coming to Canada at the beginning of the 20th century Sherbinin first taught and ministered to the Doukhobours near Saskatoon. He moved on to Winnipeg where he taught at Manitoba College, later the University of Manitoba. He was a pioneer in researching and recording the Ukrainian immigration experience.

Congratulations Graduates

Congratulations *Honorary Degree Recipient*

Jean Gray

Dr Jean Gray, an alumna of the University of Alberta and Professor Emeritus of Medicine and Pharmacology at Dalhousie University, is one of Canada's outstanding medical educators.

Dr Jean Gray obtained a Bachelor of Science in Chemistry in 1963 and a Medical Degree in 1967 from the University of Alberta. Following her graduation, she completed a junior rotating internship at Toronto Western Hospital and then a Postdoctoral Fellowship in the Department of Pharmacology at Stanford University. She later moved to Dalhousie University, where she excelled as a professor of medical education, medicine and pharmacology. She has been an advocate for clinical education and female physicians in medicine.

At Dalhousie University, she was the founding Head of the Division of General Medicine, and served as Associate Dean of Postgraduate Medical Education and Associate Dean of Continuing Medical Education.

Throughout her long and successful career, Dr Gray has pursued a wide range of research interests, including drug metabolism, hypertension, women's health and medical education. As a leader in medical education, medicine and pharmacology at Dalhousie University, she developed tools to better evaluate residents in training and championed mentoring programs for women medical students.

In 1993, she became a Diplomat of the American Board of Clinical Pharmacology, and in 1999, she was designated a Specialist in Clinical Hypertension by the American Society of Hypertension.

In addition to her many publications in peer-reviewed journals, Dr Gray has played senior editorial roles in several journals. She has held the leadership position of President with the Canadian Society of Clinical Pharmacology, the Canadian Society of Clinical Investigation, and the American Society of Clinical Pharmacology and Therapeutics. She has served as Co-chair of the Interim Steering Committee of the Maritime Centre of Excellence in Women's Health and of the Management Committee. She has also been a member of the Medical Research Council Taskforce on Women's Health Issues and Women's Career Development. She is currently serving as President of the Canadian Institute of Academic Medicine and the Canadian Association of Medical Education, as a member of the Council of the Royal College of Physicians and Surgeons of Canada, and as Chair of the Advisory Board, Institute of Gender and Health of the Canadian Institutes of Health Research.

Dr Gray has tremendous energy and an abiding commitment to excellence. She is an exemplary role model who is recognized nationally and internationally as a visionary leader in medical education.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Jean Gray:

Gaubius, Hieronymous David. Libellus de Methodo concinnandi Formulas Medicamentorum.
Leyden: c. Wishoff, 1739.

This first edition is considered by medical historians to be Gaubius's best work and was issued in many later editions over several decades. Gaubius was the Chair of chemistry at Leyden and reputed to be the most pre-eminent teacher of pathology in his day. His medical and pharmacological teachings had an important influence on German medical thought.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. Congratulations *Honorary Degree Recipient*

Edward (Ted) Harrison

Mr Edward (Ted) Harrison, is a distinguished University of Alberta alumnus, and is one of Canada's most talented artists, renowned for depicting the land and people of the Yukon. He is also an internationally recognized author and illustrator of children's books, and has spent much of his career teaching art to children of all ages.

Ted was born in 1926 with his twin sister, Algar, in the village of Wingate in County Durham, England. His father was a coal miner and his mother a "miner's wife". He attributes his early interest in art and design to the encouragement he received from his parents, particularly his mother who had an interest in fashion design and photography. His fondest memory as a youngster was illustrating a book of MG motor cars at the age of 12.

In 1943, he enrolled in the West Hartlepool College of Art and began to study art and design in earnest. Unfortunately, like other young men at the time, his education was interrupted by the Second World War. Following military service, he returned to art school and in 1950, received a Diploma of Design. The following year he received a teaching certificate from the University of Durham and began a twenty-eight year career in Education. He taught school in England, Malaysia, New Zealand and finally came to the Yukon in 1967 where he received a job teaching in "the land of the mighty Moose – where weaklings need not apply". He and his family settled in Carcross and in 1970 moved to Whitehorse where he taught art to adults and secondary school students. In 1977 he earned a Bachelor of Education degree from the University of Alberta. In 1979 he began to work as a full time artist. In 1993, he and his wife, Nicky, moved to Victoria, British Columbia where he currently lives and works.

Mr Harrison credits the work of English painter, Norman Cornish, for inspiring his life long quest to paint people and places. He was also profoundly influenced by the curvilinear shapes of Maori art during his stay in New Zealand. He greatly admires the work of Austrian painter Hundertwasser, Japanese print maker Katsushika Hokusai and the American painter Winslow Homer, but the strongest influence on his life and art was living in the land of the Yukon "where he found his Waterloo!"

In 1987 Mr Harrison received the Order of Canada for his contribution to Canadian culture, and he was awarded an honorary doctorate from Athabasca University in 1991. Mr Harrison was also the first Canadian to have book illustrations selected for the International Children's' Book Exhibition in Bologna, Italy.

Admired by many Canadians, Mr Harrison's artistic talents and lifelong commitment to art, education and the people of the Yukon is truly inspiring.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Edward Harrison:

Muir, Ann. Harvesting Colour: the Year in a Marbler's Workshop.

Oldham, Eng.: Incline Press, 2000.

Number 180 of an edition of 225 copies, signed by the artist.

This beautifully conceived book is divided into twelve monthly chapters. Each is preceded by a marbled paper created to reflect that month by the internationally renowned artist, Ann Muir. The chapters are introduced by a quote from the text which provided the inspiration, followed by technical details of the paper's production. The art of paper marbling can be traced back to the 14th century and just one aspect of Muir's incredible talent is the wide range of dexterity she displays in the skilful manipulation of colour and combs in order to produce modern versions of traditional designs.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

The University Cheer Song

Please join in the singing of the University Cheer Song (words and music provided on page 68):

Ring out a cheer for our Alberta
A song of praise to Varsity
For the splendour of our mountains
Our prairies green and gold,
Ranked beneath whose glowing colours,
Thy legions march enrolled.
Our memories will live forever
Beloved University
We will fight for thee and cheer
And ever hold thine honor dear.
Our Alma Mater U of A

Recession

Members of the audience are requested to remain at their places until the Platform Party and the graduates have recessed. Following the Convocation ceremony, light refreshments will be served in the reception areas to the right and left of the stage. The University and the Alumni Association cordially invite you to attend.

<i>Right of Stage:</i>	<i>Faculty of Engineering</i>
<i>Left of Stage:</i>	<i>Faculty of Agriculture, Forestry, and Home Economics</i>

Those graduates who would like a photograph with the Chancellor may meet him at the display in the reception area to the left of the stage. The Chancellor will be available for approximately twenty minutes following the conclusion of the ceremony.

Congratulations

Honorary Degree Recipients

Harry Hole and James F (Jim) Hole

Brothers Harry and James (Jim) Hole are two of Edmonton's leading philanthropists, businessmen, engineers, and community supporters.

Both University of Alberta alumni and civil engineers, Mr Harry Hole graduated in 1944 with a Bachelor of Science in Civil Engineering and Mr Jim Hole graduated in 1950 also with a Bachelor of Science in Civil Engineering. Their involvement with the University of Alberta and the greater community has led to significant contributions to business, the arts, athletics, health and education.

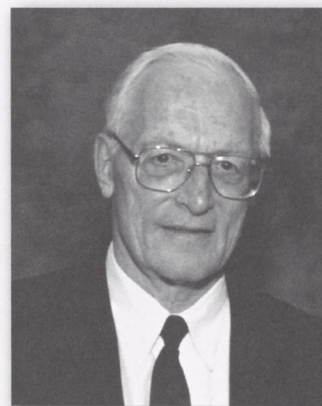

As local business leaders, both held executive positions with the Edmonton-based Lockerbie and Hole, the company co-founded by their father Harry Hole Sr, which has been in business more than a century. Within the company, they played a significant role in the development of buildings and infrastructure, stretching across the University of Alberta campus, Edmonton, Alberta, and the Northwest Territories.

The Hole brothers' generosity has touched almost every aspect of our local society. As benefactors of the Edmonton Community Foundation, the Hole brothers have provided a legacy of support to nurture young minds through nutrition and lunch programs in Edmonton schools. They have also been significant supporters of the arts community through donations to the Citadel Theatre and the Victoria School Foundation for the Arts. Together, they have assisted many charities and organizations including the Stollery Children's Health Center, the Odysium (now the Telus Centre of Science Edmonton), Concordia College and STARS Air Rescue. Both have also supported post-secondary education for a number of years, and the University of Alberta's Hole School of Construction was named in recognition of their contributions.

The Holes have also given their time and talents through active participation on numerous boards and committees. Mr Jim Hole spearheaded a group of prominent Edmontonians who joined together in 1998 to purchase the Edmonton Oilers Hockey Club; thus, keeping the team in Edmonton. He served as President of the Edmonton Eskimos Football Club, and the Canadian Football League, and as a committee member for several major sporting events held in Edmonton over the past 30 years.

Mr Harry Hole has played a key role in the development of Edmonton Northlands, where he has spent over 25 years with the Board of Directors of Northlands Park. He is also the founding chair of the Edmonton Police Foundation. Many other organizations have benefited from his advice as a member of their boards.

Together, Harry and Jim Hole have combined their unique interests and talents to create investments in our community that have enriched and enhanced it. While individually they have focused their time in specific areas, together they have made an indelible impact on their city, their profession, and their alma mater.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of honorary degrees to Mr Harry Hole and Mr James Hole:

Canadian National Railway. "It's Mine" Canada: the Right Land for the Right Man.
London: Dudley, Spencer & Co., (1900).

In the aftermath of World War I, both the Canadian Pacific and the new, Crown-owned, Canadian National Railway companies conducted extremely successful promotional campaigns to advertise the benefits of immigration to Western Canada. Brochures, pamphlets and beautifully designed large-format posters were disseminated to railway stations, mechanics' institute reading rooms, hotels, agricultural fairs and public meeting rooms. These eye-grabbing posters are very rare as they were generally torn down and discarded to make way for newer versions. The Bruce Peel Library has a very strong immigration literature collection and the addition of such ephemeral materials enhances its research importance.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Honorary Degree Recipient

Mr Alfred George Wirth

Mr Alfred George Wirth, a leading figure in the financial services sector, is a passionate supporter for education in the arts, humanities and social sciences.

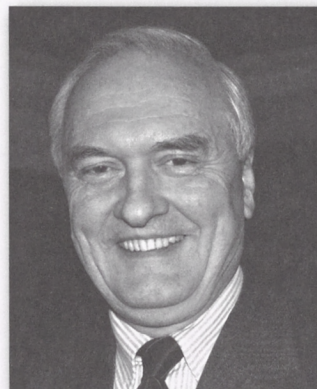

Alfred G Wirth was born in Vienna in 1941 and moved with his family to Canada in 1952. Educated at Sault Collegiate Institute and St. Andrew's College, Mr Wirth earned a Bachelor of Arts (Honors) in Economics and Political Science and a graduate diploma in management from McGill University. He undertook senior management development at the University of Western Ontario and earned a number of other academic credentials and awards.

A talented investment manager, Mr Wirth has enjoyed a distinguished career in Canada's financial sector. His executive duties have included roles as Vice-President, Securities Investments with SunLife of Canada; as Senior Vice-President and Chief Investment Officer with Crown Life Insurance; and, since 1991, as President and Director of Wirth Associates Inc.

In addition to his achievements as a business leader, Alfred Wirth has pursued a lifelong passion for scholarly and cultural activities. He has chosen to live a life in which he commits himself to the arts and his Austrian roots and heritage. He retains a strong connection with Austria, travelling there frequently and serving as an active member of the Austrian Society for Financial Analysis and Investment Management in Vienna. Mr Wirth's childhood memories of Austria are still very vibrant, and his focus on the study of the history, society and culture of the region stems from both intellectual interest and a sense of altruism and social responsibility.

Alfred Wirth's foresight has set the cornerstone of an institution that not only highlights the contributions of Austrian migrants to Canadian society, but also will enable Canadian students and scholars to keep the links with Central Europe alive and vital. His contributions to the development of the internationally renowned Wirth Institute for Austrian and Central European Studies at the University of Alberta will ensure the maintenance of the Institute and its programs in perpetuity. The Wirth Institute for Austrian and Central European Studies is a unique institution within Canada and a key component of the University of Alberta's expanding role on the international stage.

Alfred Wirth's commitment to the University of Alberta constitutes a visionary contribution not only to Austrian and Central European studies and culture, but also to the progress of education within a global society.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Alfred G Wirth:

Keim, Franz. Die Nibelungen dem deutschen Volke wie der Erzählt von Franz Keim. Bilder un Ausstattung von C.O. Czeschka. Wien: Verlag Gerlach und Wiedling, 1920.

A lovely copy of this charming little book illustrated by Carl Otto Czeschka, a prominent member of the Vienna Secession and a designer for the Wiener Werkstätte, it features eight double-page spreads printed in gold, red, blue and black as well as many small black and white vignettes, initials, head and tail pieces throughout. One of the finest examples of the Art Nouveau book.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

History of Convocation

Magna Congregatio

In the eleventh century, a new vitality quickened all aspects of the civilization of Western Europe. The creative forces thus unleashed soon found expression in new institutions, and of these the university bids fair to be the most enduring. The modern university is the lineal descendant of the university of the Middle Ages. Its purposes and organization, even much of its ceremonial, are medieval in origin.

The medieval university was originally called a *studium generale*, that is, a place of learning to which teachers and students from anywhere resorted. The first *studia* were at Salerno, Bologna, and Paris. These came into existence spontaneously and developed through the twelfth century as the needs of the time and their inner necessities dictated. In the thirteenth century these spontaneous associations crystallized into guilds or corporations endowed by Church and State with specific privileges which guaranteed the internal autonomy necessary for the vocation of study. To these corporations was increasingly applied the word *universitas* denoting the entire group of those responsible for the transmission of higher learning and the pursuit of knowledge.

By the beginning of the 14th century, two forms of university organization had appeared. At Bologna, primarily a higher school of canon and civil law to which came men experienced in ecclesiastical and secular administration, the control of the *studium generale* passed to the students; hence Bologna was a *universitas scholarum*. On the other hand in Paris and Oxford, whose dominant faculty was the Faculty of Arts, the *studium* emerged under the direction of a guild of teachers, a *universitas magistrorum*. Through its own officials, notably the chancellor (once symbol of external control and by now of internal autonomy), the guild of teachers developed its courses of instruction, administered its own affairs and admitted to its company only those who had met its intellectual standards. The University of Alberta stands in the tradition of Paris and Oxford.

Originally the goal of the medieval student was certification by the guild of teachers that he also was qualified to teach (the *licentia docendi*). With the passage of time the student's progress through the curriculum was marked by ceremonies which signified his successful attainment of a certain level (*gradus* or in modern language, degree) of competence. The Bachelor had completed his apprenticeship in the Faculty of Arts. The Master was now qualified to teach in that Faculty and was thus incorporated into the *universitas magistrorum*.

The Doctor was one who, having obtained the mastership, had successfully completed the curriculum of one of the "higher" faculties (in the Middle Ages, law, medicine, and theology) and was now qualified to teach in those faculties. Inevitably the degrees of the *universitas* did more than admit their holders to the teaching profession. They served the wider social purpose of demonstrating their holders' fitness to serve the entire medieval community.

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval *magna congregatio* of all faculties, is led by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods, and caps, once the sober, disciplined dress of secular clergy and teachers, declare in their various designs and colors the academic qualifications of the Faculty. The citations and presentations by the Faculty to the Chancellor attest to him and to society the degree of proficiency attained by the students of the University. There follows a visible and public act whereby the *universitas magistrorum*, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree bestowed. More, the formula, "I admit you" and the placing of the students' hands within the hands of the Chancellor and his associates, bind the students in the appropriate degree to the *universitas magistrorum*. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

The history of academic dress reaches far back into early days of the oldest universities. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University Coimbra wear gowns. In England, in the second half of the fourteenth century, the statutes of certain

colleges forbade "excess apparel" and prescribed the wearing of a long gown. It is still a controversial question as to whether academic dress finds its sources chiefly in ecclesiastical or in civilian dress. Gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as "academic." (The mortar board - the hard, square cap commonly used as academic headdress today - evolved from the softer, more flexible "square cap" introduced in England about 1490. It is named for the square board on a handle used by stone masons for holding the mixed mortar to be applied to walls.) Both Cambridge and Oxford have made academic dress a matter of university control to the extent of even its minor details and have repeatedly issued revised regulations. In Laudian days in Oxford it was prescribed that any tailor who departed from authorized design "even by a nail's breadth" in the making of any article of collegiate costume was to be punished by the vice-chancellor of the university.

Academic dress at the University of Alberta generally follows the prescription of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. See the Academic Dress page in this program for a detailed description of the academic dress at this institution.

In addition to the apparel worn by holders of degrees conferred by the University of Alberta, a collection of apparel specific to particular offices has also been developed. The President of the University wears a green gown faced with gold braid trim and lining and a green cap with a gold tassel. The Chancellor and Chancellors Emeriti wear gowns of teal blue with silver trim and black caps with silver tassels. The gowns of the senior officials bear an embroidered crest of the University. University Governors and Senators wear stoles bearing the crest of the University over their gowns: gold for Governors and green for Senators. The University Registrar wears a green gown with gold trim on the sleeves.

Graduates and staff of the University of Alberta who wish to purchase their own academic apparel are invited to contact the Convocation Officer in the Office of the Registrar and Student Awards. Acknowledgements: The University of Western Ontario, The American Council on Education.

The University Coat of Arms

Quaecumque Vera

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto *Lux et Lex*; the words "University of Alberta" were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

Shield: a representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

Crest: a Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

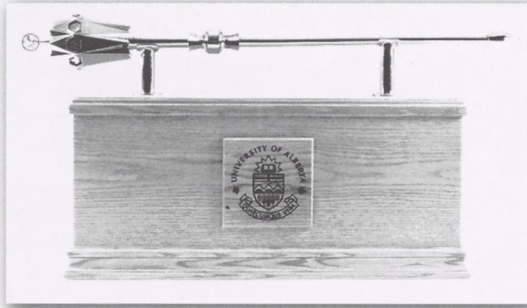

Supporters: a pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

Motto: *Quaecumque vera* ("Whatsoever things are true," Philippians 4:8)

The arms are copyrighted and may not be used without permission of the Board of Governors. The name of the University is similarly protected.

Mace and Ceremonial Chairs

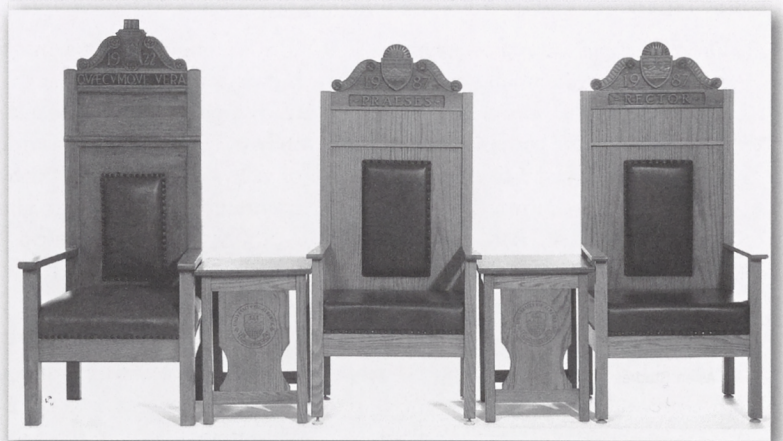

University Traditions

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. Michael Galbraith presented the Mace on behalf of his father on May 26, 1970. Among its elements are the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto "Quaecumque Vera" ("Whatsoever Things Are True" Phil 4:8) encircles the staff. The Mace is made of sterling silver which was rhodium plated after the insertion of the various enamelled shields which make up its elements. A special electroplate process was used to apply 24 karat gold to other parts of the Mace.

It was intended that the Mace should be modern in appearance but with medieval origins. The preponderance of visual weight at the top of the staff and the rather complex section through the metalwork at this point are reminiscent of the use of the mace as a weapon, defensive or aggressive. The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power - but the power of knowledge and the importance of the University in the community.

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded-leather back is carved the University motto "Quaecumque Vera" together with the class year, 1922, and the University emblem. In 1987, the family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of an oak stand for the University of Alberta Mace and two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

Academic Dress

Ceremonial Colors

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point.

Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

Doctorate Degrees

Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctors' hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on

the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.
